# Facility-Based Programs

## **CDRP (Chemical Dependency Recovery Program)**

- Located at Larned Correctional Mental Health Facility (LCMHF)
- Slots: 40
- Program Length: 18 weeks
- Screening Criteria:
  - LSI-R (Level of Service Inventory-Revised) total risk score of 20 to 27
  - LSI-R Alcohol/Drug domain score of 3 or >
  - DSM-IV (Diagnostic and Statistical Manual of Mental Disorders)
  - Minimum Custody
- CDRP is an intensive outpatient treatment program w/ emphasis on:
  - Cognitive Self Change (Thinking for a Change)
  - Drug Specific Education
  - Individual and Group Counseling
  - Problem Solving/Social Skills Development
  - Parenting and Family Issues
  - Relapse Prevention
  - Goal Setting/Aftercare Planning

## **CODRP (Co-Occurring Disorder Recovery Program)**

- Located at the "Isaac Ray" (I/R) building at the "Larned State Hospital" (LSH) and is a
- Program Length: 18 – 24 months
- Screening Criteria:
  - KDOC staff identifies inmates who would most likely meet the criteria for the program (much as the mentally ill sent to LSH are already identified).
  - LSH will then conduct a secondary assessment process.
  -
- CODRP is a co-occurring treatment pilot program.
  - The program is run by LSH staff, for KDOC inmates, who have both mental illness and substance abuse issues.
  - Phases: There are four phases with the 4<sup>th</sup> phase having a mentoring component.

- The CODRP program meets the IPP requirement for substance abuse treatment. Treatment discharge summaries will be imaged into the KDOC OMIS database.

## **TASAL**

- TASAL= Treatment of Alcohol and Substance at Labette
- TCF Inmates Only
- Located at the Women's Correctional Conservation Camp in Oswego (Labette County)
- Operated by Labette County government with oversight provided by KDOC
- Slots: 16
- Program Length: 90 Days
- Screening Criteria:
  - LSI-R Alcohol/Drug domain score of 3 or >
  - Does not meet criteria for TC program
  - Minimum Custody
- TASAL is a facility-based outpatient treatment program with emphasis on:
  - Cognitive Self Change (Thinking for a Change)
  - Criminality
  - Anger Management
  - Relationships
  - Parenting
  - Employability
  - Relapse Prevention

## **Therapeutic Community (TC)**

### **Males**

- Located at:
  - Hutchinson Correctional Facility (HCF)
  - Osawatomie Correctional Facility (OCF)
  - Ellsworth Correctional Facility (ECF)
- Slots
  - HCF: 60 (medium custody)
  - OCF: 80 (minimum custody)
  - ECF: 52 (medium custody)

- Program Length 11 to 13 months
- Screening Criteria:
  - LSI-R total risk score of 28 or greater
  - LSI-R Alcohol/Drug domain score of 3 or greater
  - SASSI (Substance Abuse Subtle Screening Inventory)

## **Females**

- Located at Topeka Correctional Facility
- Slots: 24
- Program Length: 11 to 13 months
- Screening Criteria
  - LSI-R score in Alcohol/Narcotic domain of 3 or greater
  - Enough time remaining on sentence to complete the program

## **Defining Principle of a TC**

- Fosters self improvement and a lifestyle change from a subculture of criminality to a mature pro-social life in a larger society
- Highly structured program environment
- Teaches the use of tools designed to call attention to negative behaviors/criminality and the thinking that led to it —cognitive behavioral change
- Participants in a TC are members of a family and community
- Peer family members act as positive role models for newer members
- The TC is organized in a “hierarchy” that encourages members to assume increasing responsibilities for family/community functions
- The Community is the agent of change vs. the treatment counselor, who is the facilitator of change. The Community holds each member accountable and enforces Community rules.

# **FACILITY REFERRAL TO COMMUNITY BASED PROGRAMS- FLOW CHART**

# Accessing Treatment

***Call: 866-645-8216 or online***

***[www.valueoptions.com/kansas/members.htm](http://www.valueoptions.com/kansas/members.htm)***

***to access any and all community substance abuse treatment services in Kansas!!***

**Please have the client in your office to answer a few questions, ValueOptions-KS will give them all of their options / referrals for connecting to appropriate services**

## **ValueOptions- Kansas (VO-KS):**

- Easiest way to access treatment is contacting VO-KS (866-645-8216)
- VO will ask the client a few questions over the phone and refer them to the appropriate providers (who can do the assessment)
- the Managed Care Organization (similar to an HMO for insurance) that administers AAPS and Medicaid funding for substance abuse services in Kansas

## **Assessment:**

- In order to access the substance abuse treatment system (public funding through AAPS or Medicaid), offenders must have a KCPC assessment (Kansas Client Placement Criteria—see definitions).
  - A KCPC Assessment for ValueOptions-Kansas clients is often performed by one of the RADACs but can also be completed by private providers within the ValueOptions-Kansas network.
  - KCPC is a Kansas-specific assessment—it is based on ASAM (American Society of Addictions Medicine) criteria
- There may be a fee for the assessment, depending on the client's situation

## **How to get an Assessment:**

- RADAC

- Pre-Release (for Reentry Program participants)
- Private Providers

## **RADACs (Regional Alcohol and Drug Assessment Centers)**

a private, not-for-profit, licensed alcohol and drug agency which holds contracts with the State of Kansas, Social and Rehabilitation Services (SRS) Addiction and Prevention Services (AAPS), Value Options, and numerous other 3<sup>rd</sup> party payers/stakeholders. Services they offer:

- neutral, objective substance abuse assessments using the KCPC
- Assessment Counselor works closely with the client, treatment provider, and the referent to help facilitate a smooth transition into treatment services (based on assessment).
- should there not be an immediate treatment opening the counselor will provide pre-treatment services on an interim basis until the client is able to access treatment.
- Also provide case management, care coordination, and community education services across Kansas.

RADAC provides some of the assessments for ValueOptions-Kansas clients

**\*\* <http://www.hradac.com/resources.htm> \*\***

provides lists of SA Providers, MH Providers, 4<sup>th</sup>-Time DUI Providers, Medicaid Programs, K-MAP, etc.—very useful!!

**\*\*see RADAC Region map in this section—RADAC Regions are now the same as SRS Regions\*\***

**Pre-Release Assessments for Reentry Program:**

- Reentry Programs (Shawnee, Sedgwick, & Wyandotte) contract with RADAC to come into prison and perform assessments pre-release for offenders in Reentry Programs
- RADAC assessors occasionally assess members of general population if time allows

**Private Providers:**

- Providers within the VO-KS network may perform KCPC assessments
- Some providers have chosen to not perform KCPC assessments, so check with the provider before referring the client

**Types of Payment for Services:**

- AAPS Funding
- Medicaid
- Veterans (VA)
- Sliding Scale Fee System
- Private Insurance
- Self-Pay

**AAPS Funding:**

- Federal and State money administered through SRS Addiction and Prevention Services-- AAPS (through contract with ValueOptions-Kansas—see SA Glossary)
- Funds provided to treatment providers in order to cover the cost of treatment for those individuals with income less than 200% of federal poverty guidelines (\$20,800 yr./\$1733 mo. for a single person in 2008—see poverty chart in “Reference” section of this manual.)
- AAPS funding provides payment, at rates determined by the Provider’s contract, for treatment services for individuals with incomes less than 200% FPL
- AAPS funding is fee-for-service, but providers have an allocation of money that they spend down
- To conserve allocated funds, providers may charge fees based on a sliding scale fee for AAPS funded clients (i.e. clients may need to pay some fees for treatment even if they are below 200% FPL; these vary by provider)

- Priority Clients must be served first with AAPS funding
  - 1) Pregnant Women
  - 2) Women with Dependent Children
  - 3) HIV+ individuals
  - 4) IV Drug Users (confirmed use within last 6 months)
  - 5) SRS Clients (Family Preservation, Foster Care, TAF Alcohol/Drug client, etc.—*receiving food stamps or owing child support alone does not make an offender a priority under this category*)
- Our offenders do not usually fall into this group (except perhaps TCF Women), so other funding is needed
- Payer of Last Resort—AAPS Funding will not pay if another funding source is available (ex: Medicaid, SB 67, SB 123, etc.)

### **Medicaid:**

- See “Medicaid/Medicare” Section of this manual for more information on Medicaid eligibility/ benefits
- Offenders usually only have Medicaid if they are disabled, elderly, or on Temporary Assistance for Families (cash and other assistance from SRS for low-income families with children)
- ValueOptions-Kansas is the MCO managing Medicaid-funded substance-abuse treatment—access treatment by phoning them at 866-645-8216

### **Veterans:**

- VA may offer treatment to some veterans
- Treatment offered depends on level of service, type of discharge, etc.
- Please contact local VA for information (also see Veteran’s information in “Other Benefits” Section of this notebook)

### **Sliding Scale Fee:**

- Sliding scale fees are at the discretion of the treatment provider—Not all providers offer a sliding scale fee system and fees vary among providers

### **Self-Pay/Private Insurance:**

- Those with private insurance should contact their insurance company regarding benefits

# Community Treatment Levels

The outcomes of a KCPC assessment may be:

- No treatment is needed
- Level I- Outpatient—group and/or individual sessions
- Level II- Intensive Outpatient
- Level III- Residential (social detox, reintegration, intermediate)
- Level IV- Hospital-Based Detox

## **Level I- Outpatient**

- May be provided to clients as an initial level of treatment care or for an individual whose severity of illness warrants this intensity of treatment.
- Also an appropriate level of care when an individual's progress warrants a less intensive model of treatment than what they are currently receiving. Example-The client has completed Residential or Intensive Outpatient treatment, but may be at risk to relapse without the structure and support offered by an Outpatient group or Individual Counseling.
- May include individual, family, and/or group counseling (less than 8 hours per week)
- Duration of treatment determined by individual's illness and his/her response to treatment

## **Level II- Intensive Outpatient**

- provided any time during the day or week
- provides essential education and counseling services while allowing the individual to apply their newly acquired skills outside of treatment
- consists of group, individual, and/or family counseling
- minimum of 9 hours of scheduled counseling services are provided each week for a minimum of 3 hours per day 3 days per week
- duration of outpatient treatment determined by the individual's illness and his or her response to treatment.

## **Level III Options:**

- **Social Detox**

- This is an on-demand service—not reliant on insurance, pre-approval, etc.
  - Limited capacity in Kansas—often hard to find beds
  - typically short term (less than 7 days)
  - provides 24-hour supervision, observation and support for individuals who are intoxicated or experiencing withdrawal from other drugs.
  - intoxication/withdrawal signs and symptoms must be sufficiently severe enough to require 24-hour structure and support.
  - Social Detox providers:
    - ✓ Observe and provide support for clients who are intoxicated or are experiencing withdrawal
    - ✓ Monitor and document vital signs, and
    - ✓ Conduct an assessment for the client’s potential withdrawal using an appropriate clinical tool.
- **Intermediate Residential treatment**
    - Provides a regimen of structured services in a 24-hour residential setting
    - housed in or affiliated with permanent facilities where individuals can reside safely.
    - Recommended for clients in only in cases where the effects of the substance abuse on the individual’s life are so significant, and the resulting level of impairment so great, that a less intensive modality of treatment will not be feasible or effective
- **Reintegration**
    - directed toward:
      - ✓ applying recovery skills
      - ✓ preventing relapse
      - ✓ improving emotional functioning
      - ✓ promoting personal responsibility
      - ✓ reintegrating the individual back into the community.
    - Individuals treated in a reintegration residential treatment setting typically experience problems with applying recovery skills, assuming personal responsibility, and/or problems with family, education or work.

#### **Level IV- Hospital Based Detox**

- provides care to those individuals whose withdrawal signs and symptoms are sufficiently severe to require primary medical and nursing care services.
- 24-hour observation, monitoring and counseling services are available.
- A licensed program providing acute detoxification treatment shall:
  - ✓ Have a registered nurse or licensed practical nurse on duty 24 hours a day on the unit.
  - ✓ Provide a 24 hour evaluation and withdrawal management performed by medical professionals in a licensed health care or substance abuse treatment facility:
  - ✓ Provide services based on policies and procedures that have been approved by the physician,
  - ✓ Complete a comprehensive medical assessment and physical examination for each detoxification client at the time of admission,
  - ✓ Maintain access to laboratory and toxicology testing.

# Acronyms & Definitions

**AAPS-(Addiction and Prevention Services)**-The agency of the Department of Social and Rehabilitation Services (SRS) whose powers, duties, and functions include the licensure of alcohol and drug treatment providers.

[www.srskansas.org/hcp/aaps/AAPSAboutUs.htm](http://www.srskansas.org/hcp/aaps/AAPSAboutUs.htm)

## **A&D**

- **Substance Abuse Definition-** A&D (Alcohol and Drug)-community shorthand for alcohol and drug related issues
- **KDOC Facility Definition-** A&D- (Admission and Discharge)- a unit found at KDOC facilities. Offenders coming into the facility and leaving the facility are processed through this unit.
- **Parole Definition-** A&D- (Arrest and Detain)- a warrant used by Parole Services.

## **Alcohol and other Drug Abuse Counseling (AAPS)**

- **Counseling:** The therapeutic interaction between a client, client's family and a counselor intended to improve, eliminate, or manage one or more of a client's alcohol and other drug abuse issues which may include but are not limited to: Individual counseling provided to a client, Group counseling provided to more than one client, or family, or Family counseling provided to a client and/or family members.
- **Qualified Staff:** An individual whose education, experience, and training has been evaluated and approved by Kansas Department of Social and Rehabilitation Services to provide the scope of practice afforded to an alcohol and drug credentialed counselor, counselor in training, or counselor assistant, as defined in R03-302, working in licensed/certified alcohol and drug treatment programs.
- **Substance abuse services:** The array of services provided to an individual experiencing substance abuse problems which may include but is not limited to assessment, education, counseling and discharge planning.

- **Treatment program:** Any entity which provides specialized services to individuals experiencing problems with alcohol and drugs through the provision of substance abuse services.

**ASAM PPC-2- (American Society of Addiction Medicine's (ASAM) Patient Placement Criteria (ASAM PPC-2R))** --the most widely used and comprehensive national guidelines for placement, continued stay and discharge of patients with alcohol and other drug problems. Responding to requests for criteria that better meet the needs of patients with co-occurring mental and substance-related disorders ("dual diagnosis"), for revised adolescent criteria and for clarification of the residential levels of care, the ASAM Patient Placement Criteria for the Treatment of Substance-Related Disorders, (Second Edition -- Revised ): (ASAM PPC-2R) was released in April, 2001. The ASAM PPC-2R provides two sets of guidelines, one for adults and one for adolescents, and five broad levels of care for each group. The levels of care are: Level I, Outpatient Treatment; Level II, Intensive Outpatient/Partial Hospitalization; Level III, Residential; Level IV, Hospital-Based Treatment

**ASI (Addiction Severity Index)**-The Addiction Severity Index (ASI) broadens severity assessment to patients using or abusing drugs other than alcohol and focuses on seven problem areas commonly found in addiction patients (McLellan et al., 1980). The ASI is not and was never intended to be a placement tool, but rather an instrument to measure severity of illness. [www.tresearch.org/ASI2.htm](http://www.tresearch.org/ASI2.htm)

### **Case Management Services**

- **Case Management through Medicaid (VO-KS)**- Assist individuals to become more self-sufficient through an array of services which assess, plan, implement, coordinate, monitor and evaluate the options and services to meet an individuals needs, using communication and available resources to promote quality, cost effective outcomes. Services should address an individual's major lifestyle, attitudinal, and behavioral problems that have the potential to undermine the goal of treatment. This service is designed to link clients to resources such as housing, child care, vocational education, etc. rather than provide those direct services.

- **Person-Centered Case Management (AAPS)** - Services provided by a certified person-centered case manager (PCCM) from a strength based approach. Services are based on barrier reduction for engagement, retention, and recovery through the development of community support services. The delivery of services is guided by the member's personal wellness plan and incorporates the process of structured engagement. This service is designed to link clients to resources such as housing, child care, vocational education, etc. rather than *provide* those direct services.
- **Support Services (AAPS)** - Supplemental services offered to assist the recovering person in accessing and coordinating community resources that would support his/her abstinence from alcohol and other drugs. These services are provided outside of the agency's physical location to assist the client with the needed resources to facilitate access, engagement, and retention in treatment and recovery services such as transportation. These services are beyond what would be considered traditional client care coordination within the agency to provide good client services
- **KDOC Definition-** Comprehensive approach to post-conviction supervision of offenders to reduce risk and support reintegration by: assessment, development and implementation of programs and interventions.

**Client- (AAPS)-** A consumer of alcohol and other drug services provided by a licensed provider.

**Continuing Care- (AAPS)-**A formal, planned process to aid in the ongoing recovery of the client and takes place after the client has completed a primary treatment episode.

**Controlled substance-** A pharmaceutical compound that is regulated according to the Federal Controlled Substance Act

**Coordination of Care (ValueOptions-Kansas)-**The process of coordinating care among behavioral health care providers and between behavioral health care providers and physical health care providers with the goal of improving overall quality of a Member's health care.

**CRB (Community Residential beds)**-The CRBs provide structured living for offenders who are just being released from prison and who lack a suitable parole plan or for those on post incarceration supervision who have encountered difficulties. The focus of the CRBs is to encourage the offender's successful return to the community. CRBs are located in Wichita, Kansas City, and Topeka

**CSR (Continued Stay Review)**- it is a concurrent review once someone is already in treatment and the provider wants to request more time in the same modality (usually) they use a CSR to submit their clinical evidence and treatment plan for the next requested days.

**CSR (Clinical Services Report)**- An evaluation of the offender's current mental health and risk level.

**Court Mandated Treatment- (SVORI)**-A court order to participate in treatment as part of a sentence or as an aspect of the judicial process.

**Discharge Plan (AAPS)**-The process of identifying, documenting, and coordinating services and resources needed to support the client's recovery upon completion of treatment services.

**Discharge Summary**- The documentation and analysis of the client's progress in treatment including progress with identified treatment plan goals.

**DSM-IV**- Diagnostic and Statistical Manual of Mental Disorders, Fourth Edition, Used by clinicians to assist with diagnosis

**EMR (Electronic Medical Records)** (KDOC/CCS)

**Emergency Services**- ValueOptions-Kansas definition- Means covered inpatient and outpatient medical or behavioral health care services that are: (1) Furnished by a treatment provider that is qualified to furnish the services, and (2) Needed to evaluate or stabilize an emergency medical condition.

**Emergent-** ValueOptions-Kansas definition- A service need that must be met immediately because the individual is unsafe or his or her condition is deteriorating.

**IDDT (*Integrated Dual Diagnosis Treatment*)-** An Evidenced Based for people who have co-occurring disorders, mental illness and a substance abuse addiction. This treatment approach helps people recover by offering both mental health and substance abuse services at the same time and in one setting

[mentalhealth.samhsa.gov/cmhs/communitysupport/toolkits/cooccurring](http://mentalhealth.samhsa.gov/cmhs/communitysupport/toolkits/cooccurring)

**Intake-** AAPS definition. The process of recording the client's personal history

**Intensive Outpatient (Level II)**

- provided any time during the day or week
- provides essential education and counseling services while allowing the individual to apply their newly acquired skills outside of treatment
- consists of group, individual, and/or family counseling
- minimum of 9 hours of scheduled counseling services are provided each week (at least 3 days per week)
- duration of outpatient treatment determined by the individual's illness and his or her response to treatment.

**KCPC (Kansas Client Placement Criteria)-** Screening Instrument used by AAPS to determine the level of care needed. This is an objective, scientific instrument for treatment placement, continuing care, and discharge to ensure that decisions about care are driven by clinical needs and objectives, and are standardized statewide.

**LCCC (Labette County Conservation Camp)-** Boot camp/substance abuse treatment program for men only. This is not a KDOC boot camp but rather operated by the county government with oversight provided by the KDOC. The LWCCC/TASAL program for women is located at a separate camp in Oswego

**LWCCC** is the camp for women and where the TASAL program is located. This camp is also operated by the county government with oversight provided by the KDOC. Also see TASAL.

**Member of ValueOptions-Kansas-** The person receiving T-XIX (Title 19 Medicaid) or AAPS-funded substance abuse services. The term Member generally means client, participant, customer, consumer or recipient.

**Medical Necessity-** (Defined by SRS)- determined by the KCPC/ASAM criteria—includes

- ✓ Authority (recommended by treating clinician and deemed necessary by the Secretary of SRS or his designee)
- ✓ Purpose (has the purpose of treating a medical condition/substance abuse disorder)
- ✓ Scope (most appropriate level of service, considering potential harms and benefits)
- ✓ Evidence (intervention is known to be effective in improving health outcomes)
- ✓ Value (intervention is cost-effective for the condition compared to alternative interventions, including no intervention)

**Modality** (AAPS definition)-A category of treatment services

**NIDA (National Institute on Drug Abuse)**- NIDA supports most of the world's research on the health aspects of drug abuse and addiction.

**RADAC (Regional Alcohol and Drug Assessment Center)**- a private, not-for-profit, licensed alcohol and drug agency which holds contracts with the State of Kansas, Social and Rehabilitation Services (SRS) Addiction and Prevention Services (AAPS), Value Options, and numerous other 3<sup>rd</sup> party payers/stakeholders. Services they offer:

- neutral, objective substance abuse assessments using the KCPC
- Assessment Counselor works closely with the client, treatment provider, and the referent to help facilitate a smooth transition into treatment services (based on assessment).
- Pre-treatment services-- should there not be an immediate treatment opening the counselor will provide pre-treatment services on an interim basis until the client is able to access treatment.

- case management
- care coordination
- community education services across Kansas.

KDOC currently contracts with RADAC for assessments pre-release (mostly for reentry program participants)

**Readiness for treatment (SVORI)**-A clients perception and acceptance of his or her need for treatment

**Reintegration (AAPS Treatment Modality definition)**

- directed toward:
  - ✓ applying recovery skills
  - ✓ preventing relapse
  - ✓ improving emotional functioning
  - ✓ promoting personal responsibility
  - ✓ reintegrating the individual back into the community.
- Individuals treated in a reintegration residential treatment setting typically experience problems with applying recovery skills, assuming personal responsibility, and/or problems with family, education or work.

**Reintegration (KDOC Process)**- The process by which an offender merges back into society after conviction, as pro-social, law abiding, and productive member of his/her community.

**Residential Program**- A live in alcohol/drug treatment program that operates 24 hours a day (e.g. intermediate, reintegration, therapeutic community, social detoxification services, inpatient, acute detoxification)

**S/A (Substance abuse treatment)**- Substance abuse treatment provides offenders with a continuum of treatment services to assist them in overcoming their dependence on and abuse of alcohol and other drugs. The department offers several levels of facility-based substance abuse treatment, including cognitive therapeutic communities.

**SACK (The Substance Abuse Center of Kansas)**- Has been in existence since 1995, is a non-profit organization specializing in the prevention, treatment and case management of individuals affected by

substance abuse. SACK supports this mission by serving as a community resource provider to improve and support recovery alternatives with an emphasis on consumer choice and professional assistance through a continuum of care. SACK specializes as a consumer advocate supporting all methods of recovery and is committed to the development of quality partnerships for the benefit of consumers across the State of Kansas  
Tel: (316) 267-3825 · Fax: (316) 267-3843 ·  
731 North Water, Suite 2, Wichita, KS 67203  
<http://www.saack.org/mission.php>

**SAMHSA (Substance Abuse and Mental Health Services Administration)**- Federal agency in charge of mental health and substance abuse at the federal level (inc. regulations, grants, resources, etc.)

**SASSI (Substance Abuse Subtle Screening Inventory)**- Brief, self-administered screening for substance abuse. It is only a screening to indicate the need for further testing concerning substance abuse. SASSI alone is not enough to make a SA diagnosis

**SRS (KS Department of Social and Rehabilitation Services)**- State agency focused on support for children, families, adults, and persons with disabilities or addictions (inc. MH/SA divisions for Kansas). Administers regulations in these areas

**Senate Bill 123**- Bill for treatment rather than confinement for 1<sup>st</sup>-time drug offenders. Requires intensive substance abuse treatment including cognitive treatment. Offenders can be revoked and sent to prison for failure in this program. In November 2003, Kansas implemented Senate Bill 123 (SB 123), creating a mandatory sentence of community-based drug abuse treatment and community supervision in lieu of incarceration for non-violent offenders convicted of a first- or second-offense drug possession. Under the provisions, eligible offenders receive a community corrections sentence of up to 18 months with treatment that may include any combination of detoxification, drug education, out-patient treatment, in-patient treatment, and relapse prevention. Under the provisions of SB 123, the Kansas Sentencing Commission (KSC) was directed to conduct an evaluation of the legislation after 18 months of program operation. The

KSC contracted the Vera Institute of Justice to carry out an implementation and process evaluation of SB 123, examining the functioning of the program and its impact on institutional processes.

**Senate Bill 67-** Passed in 2001 and made many changes to the DUI statute, such as increasing criminal penalties (including jail or prison time and fines, increased driver's license length of suspension, and increased the reinstatement fees); SB67 provided for lifetime driver's license revocations; restricted and revamped procedures regarding driver's license suspension and revocation administrative hearings; amended the zero tolerance law regarding driver's license suspension; and amended the underage drinking and possession statute to require a driver's license suspension of 30 days for violation.

**Senate Bill 14** In fiscal year 2008, the Kansas Legislature appropriated funding under the Senate Bill 14 Risk Reduction Initiative (SB14 RRI). The Kansas Department of Corrections (KDOC) will be awarding four million dollars of this appropriation as grant funds to local communities. The SB14 RRI is a competitive grant process under which any Kansas Community Corrections agency is eligible to apply for funding to enhance risk reduction efforts and reduce revocation rates by at least 20%. Kansas Community Corrections is comprised of 31 county operated Intensive Supervision Probation programs which provide services to all 105 counties in Kansas. These agencies have a legislatively defined target population including high risk and need probationers, and program design is specific to local offender needs and court procedures. The three specific goals of the SB14 RRI are to increase public safety, reduce the risk level of probationers on Community Corrections supervision, and increase the percentage of probationers successfully completing Community Corrections supervision. Agencies funded under this initiative will commit to the philosophy of risk reduction and building a system to facilitate probationer success by targeting the criminogenic needs of medium and high risk offenders utilizing evidence based practices and community supervision methods.

**Substance Abuse Educational Services-** AAPS definition. A face to face didactic group that provides information to clients or family members regarding alcohol and drug abuse related problems

**Substance Abuse Services-** AAPS definition. The array of services provided to an individual experiencing substance abuse problems which may include but is not limited to assessment, education, counseling and discharge planning.

**TCUDS (Texas Christian University Drug Screen)-** A screening instrument used to determine substance abuse treatment need—developed by Texas Christian University. KDOC no longer uses this instrument.

# AAPS Substance Abuse Treatment Providers

**M** = Medicaid funded  
**BG** = Block Grant funded
